

Why is Armadillo different than other home warranty companies?

We just do it better.

Transparency

The most simple 2 page home warranty plan out there.

Less Fine Print + More Coverage

Less pages means less fine print and more coverage. We removed over 80% of exclusions that most home warranty plans have.

Qualified and Reputable

We only recommend qualified, reputable and prompt service technicians.

Flexibility

You don't have to use the technicians we recommend, you can use your own trusted providers and we'll reimburse you - quickly.

Faster than Fast

Request service in less than 2 minutes at any time.

24/7 Support

Always open 24/7 support - digital and on the phone.

Armadillo is a technology company that makes requesting a repair and resolving the issue streamlined, easy, at your fingertips, and affordable.

Typical Home Warranty

A long legal contract. More pages means more conditions and exclusions – and more reasons to deny you service.

Armadillo's Home Warranty

Shortest, most transparent and digestible plan in the industry. That means less fine print so that we can actually deliver for you.
